

# Salman Farzee

**Location:** Chennai  
**Phone:** +91-8220525374  
**Email:** salmanfarzee0001000@gmail.com  
**LinkedIn:** <https://linkedin.com/in/salman-farzee>

## Professional Summary

---

**Frontend React Developer and Full Stack MERN Engineer** with **3.5+ years of experience** building scalable SPAs and enterprise-grade web platforms. Skilled in **React.js, Redux Toolkit, Node.js, Express, MongoDB, and TypeScript**. Adept at crafting pixel-perfect UIs, optimizing RESTful API consumption, and driving Agile sprints. Proven ability to collaborate cross-functionally and deliver responsive, accessible, and high-performance applications.

## Technical Skills

---

**Programming Languages:** JavaScript, TypeScript, TS, static typing

**Frontend Technologies:** React.js, React, ReactJS, JSX, Gatsby.js, jQuery, HTML5, CSS3, Bootstrap, React-Bootstrap, Tailwind CSS, Material UI

**Backend & APIs:** Node.js, Node, Express.js, NestJS, Prisma, backend development, RESTful APIs, API integration, HTTP, JSON

**Databases:** MongoDB, NoSQL, Mongoose, PostgreSQL

**Version Control & Collaboration:** Git, GitHub, GitLab, Bitbucket, version control, JIRA

**Development Tools:** Visual Studio Code, Postman, CI/CD pipelines

**State Management:** Redux Toolkit, Redux, Context API, state management

## Work Experience

---

Software Engineer — May 2022 – Present

**Bahwan CyberTek  
(BCT)**

- Spearheaded scalable frontend and backend modules as a **Full-Stack Developer** and **Frontend Developer** across multiple enterprise projects.
- Developed and fine-tuned over **20+ reusable UI components** using **React.js, Gatsby.js, HTML, CSS, and Bootstrap**, improving maintainability and load performance.
- Architected and deployed **Node.js and MongoDB**-based backend services, enhancing data throughput and scalability for high-traffic applications.
- Integrated and maintained **RESTful APIs and third-party services**, reduced API latency by 40% and enabling seamless backend communication.
- Delivered robust, type-safe codebases in **TypeScript and JavaScript**, resulting in a **30% reduction in bugs** and Accelerated developer onboarding by 2 weeks.

## Projects

---

**Giant EIP – Full-Stack Developer**

*Jul 2023 – Present*

- Developed and integrated **RESTful APIs** using **NestJS and Prisma**, improving query efficiency by 45% and enabling secure data transactions.
- Implemented robust authentication using **JWT, OAuth, CORS, and Helmet**, securing 100% of protected routes and reducing unauthorized access attempts.
- Built dynamic UI components with **React, Tailwind CSS, and HTML**, achieving full **WCAG-compliant accessibility** and responsive design across devices.

- Enhanced frontend performance via **lazy loading**, **code splitting**, and **Redux Toolkit**, reducing initial render time by 50%.
- Integrated APIs using **Axios**, enabling real-time data rendering and improving error resilience across user-driven views.

#### API Gateway – Frontend Developer

Oct 2022 – Feb 2023

- Designed and optimized **RESTful APIs** for distributed cloud systems, improving request throughput by 30%.
- Built responsive UI components using **React-Bootstrap**, **HTML5**, and **CSS3**, enhancing cross-device compatibility and user engagement.
- Diagnosed and resolved UI/UX inconsistencies, boosting accessibility scores and visual consistency across modules.

#### Namo Bharat – Frontend Developer

Apr 2023 – Sep 2023

- Engineered modular, reusable components using **React.js**, reducing development time for new features by 25%.
- Integrated **RESTful APIs** and implemented responsive layouts, ensuring seamless performance across mobile, tablet, and desktop.
- Applied advanced state management with **Redux Toolkit** and **Context API**, improving data flow and reducing re-rendering overhead.

#### Star Health Insurance – Full-Stack Developer

Jul 2022 – Mar 2023

- Engineered backend APIs using **Node.js** and **Express**, supporting real-time data sync and reducing response time by 40%.
- Integrated third-party APIs to extend platform functionality, increasing user engagement by 20%.
- Managed **MongoDB** databases with **Mongoose**, ensuring data integrity and optimizing query performance across modules.

#### Full-Stack E-commerce Website – Internship Project

[Web](#) & [Admin Web](#)

- Built and deployed a full-stack **MERN-based e-commerce platform** with separate user and admin interfaces on Netlify.
- Designed a responsive user interface using **React**, **Bootstrap**, and **JavaScript**, enabling seamless browsing, booking, and purchasing.
- Developed an admin dashboard with real-time inventory management and CRUD operations, reducing manual updates by 90%.

## Education

### Measi Institute of Information Technology (MIIT)

2020 – 2022

Master's of Computer Application - MCA

- Percentage: 87
- **Coursework:** Advanced Algorithms, Database Management Systems, Web Technologies, Software Engineering, Artificial Intelligence

## Certifications

- Internship Project – E-commerce website (React.js, Node.js, MongoDB) (2022)
- MERN Stack Web Development – Udemy (2023)
- Full-Stack Development – LinkedIn Learning (2024)
- NestJS Course – Udemy (2025)
